# Questions and Answers

## Membership information you need to know

### How do I decide if this plan is right for me?

Please read the information in this enrollment kit, including your Benefits Summary, which explains some of the benefits, limitations, features, and exclusions of this plan. Consider the amount you will pay in premiums, as shown on the Enrollment/Change Request form, and compare this plan to any other medical coverage options you may have. If you have any questions or need additional information, please call us toll-free at **1-888-772-9682**.

### How do benefit limits work?

Limits put a cap or ceiling on what the plan will pay. Some benefits have a limit on the dollar amounts and others on the number of services, or both. The plan will not pay for a service or supply once you have reached a limit on either the dollar amounts or the number of services for that service or supply. Because there are limits on what is paid for certain kinds of services or visits, you may not be covered for some services or visits even though you have not reached your overall maximum. Your Benefits Summary, found in this enrollment kit, explains these limits, maximums, and other features of your plan, such as copays and deductibles. Please read it carefully so that you understand what your plan will pay before you enroll.

### Who can enroll?

All associates registered with CornerStone working at least 8 hours are eligible to enroll after completing 30 days of service. If you are an eligible employee, you can also enroll your eligible dependents (except for Short Term Disability). Your eligible dependents are your lawful spouse and your children from birth until age 26, through any age if handicapped and unable to earn a living, or until they can no longer be legally declared as dependents. Dependent age and status requirements may vary by state.

### When does coverage begin?

Coverage is effective on the first day of the pay period following the pay period in which a deduction occurs.

### When do maximums and deductibles reset?

Annual deductibles, maximums, and limits add up throughout the coverage year, then reset and begin again on the anniversary date of your coverage year, January 1.

### Will I get ID cards?

If you choose medical and/or dental coverage, you will get plastic member identification (ID) cards. Until you get your plastic IDs, please use the temporary member ID at lower right. This ID is valid after you enroll and your coverage begins.

### How do I file a claim?

Claim forms are available from [www.aetna.com/docfind/custom/aahc](http://www.aetna.com/docfind/custom/aahc), by calling SRC toll-free at **1-888-772-9682**, or by writing to Strategic Resource Company, Attn: Claims Department, P.O. Box 14079, Lexington, KY 40512-4079.

*If you do not enroll now, you cannot enroll until the next open enrollment, unless you have a qualifying life event.*

**Open enrollment begins December 29, 2010 and ends January 29, 2011.**

## IMPORTANT HEALTH CARE REFORM NOTICE: SPECIAL ENROLLMENT OPPORTUNITY FOR DEPENDENTS UP TO AGE 26

Enrollment will be effective retroactively to the first day of the first plan year beginning on or after September 23, 2010. For more information contact SRC at **1-888-772-9682**.

**What if I miss a payroll deduction?**

Your coverage will not begin until you have your first payroll deduction. Each payroll deduction pays for coverage for one payroll period. If you miss a payroll deduction after your coverage begins, you will not have coverage during the time that payroll deduction would cover, unless you pay the full missed premium directly to SRC.

**Will my insurance be canceled if I don't make up a missed premium?**

Once your coverage has begun, it will not be canceled because you do not make up a missed premium. However, no claims will be paid for losses or covered expenses that occur during the period for which premium is unpaid.

**How do I pay my missed premium?**

To pay by **personal check, cashier's check, or money order**, make payable to **SRC/Aetna** and send with a completed copy of the coupon above to: SRC Missed Premiums, P.O. Box 534739, Atlanta, GA 30353-4739. You can get additional payment coupons from **www.aetna.com/src**, or by calling **1-888-772-9682**.

**Can I pick which missed premiums I wish to pay?**

No. Your missed premium payment will always be applied to the oldest gap in coverage within the last 45 days (from the postmark on your mailed payment). You cannot choose to cover a later gap in coverage if you have an earlier gap within the past 45 days from the date your payment is postmarked. To find out what gaps in coverage you may have, please call toll-free **1-888-772-9682**, Monday through Friday, 8 a.m. to 8 p.m. Eastern Time.

**How long do I have to pay a missed premium?**

You may pay for a gap in coverage that is up to 45 days old, from the date your payment is postmarked.

**Can I pay just a part of a missed premium?**

No. You must pay the full premium deduction that was missed in your paycheck, for all coverage you have. We cannot accept partial payments.

**If I become ineligible or my employment ends, can I continue coverage with missed premium payments?**

No. If your coverage terminates, you may not continue coverage by paying missed premiums. There may be other ways you can continue coverage, such as state continuation of coverage or COBRA, if eligible.

# choice today!

## How it works

You'll like visiting a network doctor, but you'll also like knowing it's your choice

### See a network doctor ... lower costs, hassle-free access

Visit any preferred provider without a referral. You'll have confidence knowing that anyone you choose measures up to our strict credentialing standards.

- Your plan may include an annual **deductible** (the amount of money you must pay for eligible expenses during each coverage year before the plan begins to pay benefits).
- Once your deductible is met, you'll pay a percentage of the remaining covered expenses. For some visits, services or other charges you may pay a **copay** (an initial amount of a medical provider's fee that you are responsible for paying each time you incur certain covered charges, usually paid when the charges are incurred).
- On average, you'll enjoy lower costs since network doctors have agreed to offer Aetna members negotiated fees (generally lower than the doctor's usual charges).
- Your network doctor will submit your claims for you.

### See any doctor ... the choice is yours

It's all about your freedom to choose. Visit any licensed doctor or specialist — there are no network restrictions and no referrals. You may need to:

- Meet an annual deductible (generally higher than the deductible set for services received from a network doctor).
- Then pay a percentage of the remaining covered expense at the time of service. This percentage may be higher than you would pay in-network at a preferred provider. For some visits, services or other charges you may pay a copay.
- File your own claims.
- Pay the difference between the amount covered by your plan and the amount charged by the doctor. This can increase your out-of-pocket costs because the doctor has not agreed to negotiated fees with Aetna.

### Medical Exclusions and Limitations

This plan does not cover all health care expenses and has exclusions and limitations. Members should refer to their booklet certificate to determine which health care services are covered and to what extent. The following is a **partial list** of services and supplies that are generally *not covered*. **However, your plan may contain exceptions to this list based on state mandates or the plan design purchased.**

#### Medical Pre-existing Condition Limitation:

This plan imposes a pre-existing condition exclusion. This means that if you have a medical condition before coming to our plan, you might have to wait a certain period of time before the plan will provide coverage for that condition. This exclusion applies only to conditions for which medical advice, diagnosis, care, or treatment was recommended or received within the 180 days prior to your enrollment in this plan. Generally, this 180-day period ends on the day before the medical plan waiting period begins (for example, on your date of hire). The pre-existing condition exclusion does not apply to pregnancy or to members under 19 years of age including a newborn child or a child who is enrolled in the plan within 30 days after birth, adoption, or placement for adoption.

This exclusion may last up to 365 days from the first day of your waiting period. However, you can reduce the length of this exclusion period by the number of days of your prior "creditable coverage." Most prior health coverage is creditable coverage and can be used to reduce the pre-existing condition exclusion period if you have not experienced a break in coverage of at least 63 days. To reduce the 365-day exclusion period by your creditable coverage, you should give us a copy of any certificates of creditable coverage you have. If you do not have a certificate but you have had prior health coverage, we will help you obtain a certificate from your prior plan or insurer. There are also other ways to show you have had creditable coverage. Please contact us at **1-888-772-9682** if you need help demonstrating creditable coverage.

#### Medical Exclusions:

- All medical or hospital services not specifically covered in, or which are limited or excluded in the plan documents.
- Any eye surgery mainly to correct refractive errors.
- Cosmetic surgery, including breast reduction.
- Custodial care.
- Dental care and X-rays, unless medically necessary to repair an injury to the mouth, jaw or teeth resulting from an accident.
- Donor egg retrieval.
- Experimental and investigational procedures.
- Hearing aids.
- Immunizations for travel or work.
- Infertility services, including, but not limited to, artificial insemination and advanced reproductive technologies.
- Nonmedically necessary services or supplies.
- Orthotics.
- Over-the-counter medications and supplies.
- Reversal of sterilization.
- Services for the treatment of sexual dysfunction or inadequacies, including therapy, supplies, or counseling.

This benefit applies if you or a covered dependent are admitted to the hospital as an inpatient.

## Terms defined

A service or supply is **medically necessary** if it is determined by Aetna to be appropriate for the diagnosis, care or treatment of the disease or injury involved. See the plan documents for the complete definition.

A **copayment** (or **copay**) is a fixed amount that you must pay for a medical service after you have met any deductible. In some cases, you may be responsible for paying a copay as well as a percentage of the remaining charges.

In many instances, the plan requires that a deductible is met before a benefit is paid. A **deductible** is the amount you must pay for eligible expenses before the plan begins to pay benefits. A deductible may be per service, per visit, per supply or per coverage year. Preferred and non-preferred (in-network and out-of-network) deductibles must be met separately. Covered expenses in-network do not count towards the out-of-network deductible, and covered expenses out-of-network do not count towards the in-network deductible.

Once the **family deductible** per coverage year is met, all family members will be considered to have met their deductible. You will have met your **family deductible** when two covered family members have each fully paid their own deductibles in a coverage year.

**Inpatient charges** are all charges incurred when you are admitted as an inpatient at a hospital or other inpatient facility, including hospital room and board charges (daily room rate), Inpatient Professional Services, and Other Hospital Services.

**Other Hospital Services** are charges for certain services and supplies billed by a hospital when you are admitted as an inpatient, other than those charges for room and board. These charges may be significant and may include, but are not limited to: pharmaceutical, medical and surgical supplies and devices; lab tests and x-rays; and operating and recovery room expenses.

**Inpatient Professional Services** are charges billed by surgeons, physicians, radiologists, pathologists and anesthesiologists for services provided during an inpatient stay.

**Outpatient charges** are charges billed for services and supplies provided at doctors' offices, free-standing clinics and outpatient facilities. They also include charges at a hospital when you are not admitted as an inpatient, including emergency room charges.

A **Negotiated Charge** is the maximum amount that a preferred provider has agreed to charge for a covered visit, service, or supply. After your plan limits have been reached, the provider may require that you pay the full charge rather than the negotiated charge.

A **Recognized Charge** is the amount that Aetna recognizes as payable by the plan for a visit, service, or supply. For non-preferred providers (except inpatient and outpatient facilities and pharmacies), the **Recognized Charge** generally equals the 80th percentile of what providers in that geographic area charge for that service, based on the MDR database from Ingenix. This means that 80% of the charges in the database for geographic area are that amount or less – and 20% are more – for that service or supply. For preferred providers, the **Recognized Charge** equals the **Negotiated Charge**. A non-preferred provider may require that you pay more than the **Recognized Charge**, and this additional amount would be your responsibility.

**Percentage of remaining charges you pay** refers to the percentage of **Negotiated** or **Recognized Charges** you pay after you have fulfilled the deductible and/or copay and before the benefit maximum is reached. This is also known as member coinsurance. A non-preferred provider may require that you pay more than the **Recognized Charge**, and this additional amount would also be your responsibility. Once the applicable benefit maximum has been reached, you will be responsible for 100% of the remaining balance.

**Wellness visits** are those visits to the doctor for services that are not for the purpose of diagnosing or treating an injury or disease. Some common types of wellness visits are annual physical exams, gynecological exams, well-baby or well-child visits, mammograms, some cancer screenings, and bone mass density measurements. Included as part of the wellness visit are x-rays, lab and other tests, and materials for the administration of immunizations and testing for tuberculosis.

Your plan might not offer a wellness visit(s) benefit. Please refer to the benefits chart in this Benefits Summary. Some federal and state laws mandate certain preventive exams that are to be covered by, or in addition to, this benefit if offered under your plan. If a wellness visit(s) benefit is not offered under your plan (see the benefits chart), these mandates will be covered by other benefits under your plan. Please refer to the plan documents for more information.

## Questions and answers

### How do benefit limits work?

Limits put a cap or ceiling on what the plan will pay. Some benefits have a limit on the dollar amounts and others on the number of services, or both. The plan will not pay for a service or supply once you have reached a limit on either the dollar amounts or the number of services for that service or supply. Because there are limits on what is paid for certain kinds of services or visits, you may not be covered for some services or visits even though you have not reached your overall maximum. **Before you enroll in the plan, please read the benefits chart in the previous pages carefully to understand these limits and consider what effects they may have.**

### Will the plan always pay up to the maximum benefits per coverage year?

No. How much the plan pays depends on the type and amount of the health care you receive. Some types of charges may have limits that are reached before the overall maximum they are a part of is reached. This means that the plan may no longer pay for certain types of charges you continue to have, even though the overall maximum benefit has not been reached. Please read the benefits chart in the previous pages carefully to understand what types of charges may be limited before the overall maximums in question are reached.

### How does this limited benefits insurance plan differ from a traditional major medical health plan?

There are important differences in what the plan will pay and what the premium costs. Both types of plans cover many types of services and supplies. However, this limited benefits insurance plan has a lower maximum benefit and places limits on how much it will pay for categories of services or supplies. Once you have used up the overall maximums or limits on specific benefits, the plan will not pay any more. And unlike most major medical plans, this limited benefits insurance plan does not have catastrophic coverage or a limit on your out-of-pocket expenses. This means that you may have large out-of-pocket costs if you have a serious or chronic medical condition. Because traditional major medical health plans provide more coverage, they cost more.

### What will I pay up front when I go to a healthcare provider?

A preferred doctor, hospital or other healthcare provider may require you to pay charges for which you are responsible in advance. This could include your copay, deductible, percentage of charges the plan does not pay (coinsurance), charges for services excluded under the plan, and charges in excess of your coverage limits. A non-preferred provider may require that you pay all charges in advance, and it would be up to you to submit a claim for reimbursement for any charges the plan may pay.

### What are my rights for childbirth?

Under the Newborns' and Mothers' Health Protection Act (NMHPA), your plan will treat your hospital stay for the first 48 hours after a vaginal delivery (or 96 hours after cesarean section) as **medically necessary**. Your plan's overall benefit maximum, limits and deductibles will determine how much the plan will pay. The state in which you live, you work, or your plan was underwritten may have additional mandated rights regarding childbirth. Please refer to the plan documents.

**What are my rights for reconstructive surgery after a mastectomy?**

Under the Women's Health and Cancer Rights Act, your plan will consider as **medically necessary** post-mastectomy reconstruction of the same breast, or reconstruction of the other breast to achieve symmetry, prostheses, and treatment of physical complications of all stages of mastectomy including lymphedema. Your plan's overall benefit maximum, limits and deductibles will determine how much the plan will pay. The state in which you live, you work, or your plan was underwritten may have additional mandated rights regarding a mastectomy. Please refer to the plan documents.

# Important Disclosure Information

## For Aetna Affordable Health Choices® Plans

### Plan of Benefits

Your plan of benefits will be determined by your plan sponsor and underwritten by the Aetna Life Insurance Company, 151 Farmington Avenue, Hartford, Connecticut, 06156. The benefits and main points of the Group Policy for persons covered under your plans of benefits will be set forth in the Booklet-Certificate which will be provided to you at a later date.

### Cost Sharing

You are responsible for any copayments, coinsurance and deductibles for covered services. These obligations are paid directly to the provider or facility at the time the service is rendered. Copayment, coinsurance and deductible amounts are listed in your benefits summary and plan documents.

### How Aetna Compensates Your Health Care Provider

All the physicians are independent practicing physicians that are neither employed nor exclusively contracted with Aetna. Individual physicians and other providers are in the network by either directly contracting with Aetna\* and/or affiliating with a group or organization that contract with us.

Participating providers in our network are compensated in various ways:

- Per individual service or case (fee for service at contracted rates).
- Per hospital day (per diem contracted rates).

### Advance Directives

An advance directive is a legal document that states your wishes for medical care. It can help doctors and family members determine your medical treatment if, for some reason, you can't make decisions about it yourself.

There are three types of advance directives:

- Living will - spells out the type and extent of care you want to receive.
- Durable power of attorney - appoints someone you trust to make medical decisions for you.

- Do-not-resuscitate order - states that you don't want to be given CPR if your heart stops or if you stop breathing.

You can create an advance directive in several ways:

- Get an advance medical directive form from a health care professional. Certain laws require health care facilities that receive Medicare and Medicaid funds to ask all patients at the time they are admitted if they have an advance directive. You don't need an advance directive to receive care. But we are required by law to give you the chance to create one.
- Ask for an advance directive form at state or local offices on aging, bar associations, legal service programs, or your local health department.
- Work with a lawyer to write an advance directive.
- Create an advance directive using computer software designed for this purpose.

### After-Hours Care

You may call your doctor's office 24 hours a day, 7 days a week if you have medical questions or concerns. You may also consider visiting participating Urgent Care facilities.

You may select the quality checks link for details regarding our providers' safety reports.

### Claims Payment for Nonparticipating Providers and Use of Claims Software

If your plan includes coverage for out-of-network services, and you obtain coverage under this portion of your plan, you should be aware that Aetna generally determines payment for an out-of-network provider by referring to (i) commercially available data reflecting the customary

\* Aetna is the brand name used for products and services provided by one or more of the Aetna group of subsidiary companies.

amount paid to most providers for a given service in that geographic area or (ii) by accessing other contractual arrangements. If such data is not commercially available, our determination may be based upon our own data or other sources. Aetna may also use computer software (including ClaimCheck®) and other tools to take into account factors such as the complexity, amount of time needed and manner of billing. You may be responsible for any charges Aetna determines are not covered under your plan.

## Technology Review

Aetna reviews new medical technologies, behavioral health procedures, pharmaceuticals and devices to determine which ones should be covered by our plans. And we even look at new uses for existing technologies to see if they have potential. To review these innovations, we may:

- Study medical research and scientific evidence on the safety and effectiveness of medical technologies.
- Consider position statements and clinical practice guidelines from medical and government groups, including the federal Agency for Health care Research and Quality.
- Seek input from relevant specialists and experts in the technology.
- Determine whether the technologies are experimental or investigational.

You can find out more on new tests and treatments in our Clinical Policy Bulletins. You can find the bulletins at [www.aetna.com](http://www.aetna.com), under the "Members and Consumers" menu.

## Medically Necessary

"Medically necessary" means that the service or supply is provided by a physician or other health care provider exercising prudent clinical judgment for the purpose of preventing, evaluating, diagnosing or treating an illness, injury or disease or its symptoms, and that provision of the service or supply is:

- In accordance with generally accepted standards of medical practice;
- Clinically appropriate in accordance with generally accepted standards of medical practice in terms of type, frequency, extent, site and duration, and considered effective for the illness, injury or disease;
- Not primarily for the convenience of you, or for the physician or other health care provider; and
- Not more costly than an alternative service or sequence of services at least as likely to produce equivalent therapeutic or diagnostic results as to the diagnosis or treatment of the illness, injury or disease.

For these purposes "**generally accepted standards of medical practice**" means standards that are based on credible scientific evidence published in peer-reviewed medical literature generally recognized by the relevant medical community, or otherwise consistent with physician specialty society recommendations and the views of physicians practicing in relevant clinical areas and any other relevant factors.

## Clinical Policy Bulletins

Aetna's CPBs describe Aetna's policy determinations of whether certain services or supplies are medically necessary or experimental or investigational, based upon a review of currently available clinical information. Clinical determinations in connection with individual coverage decisions are made on a case-by-case basis consistent with applicable policies.

Aetna's CPBs do not constitute medical advice. Treating providers are solely responsible for medical advice and for your treatment. You should discuss any CPB related to your coverage or condition with your treating provider.

While Aetna's CPBs are developed to assist in administering plan benefits, they do not constitute a description of plan benefits. Each benefit plan defines which services are covered, which are excluded, and which are subject to dollar caps or other limits. You and your providers will need to consult the benefit plan to determine if there are any exclusions or other benefit limitations applicable to this service or supply.

## Filing a Complaint or Appeal

Aetna is committed to addressing your coverage issues, complaints and problems. If you have a coverage issue or other problem, call Member Services at the toll free number on your ID card. If Member Services is unable to resolve your issue to your satisfaction, it will be forwarded to the appropriate department for handling.

If you are dissatisfied with the outcome of your initial contact, you may file an appeal. Your appeal will be decided in accordance with the procedures applicable to your plan and applicable state law. Refer to your plan documents for further details regarding your plan's appeal procedure.

## About Coverage Decisions

Sometimes we receive claims for services that may not be covered by your health benefits plan or that aren't in line with the terms of your plan. It can be confusing - even to your doctors. Our job is to make coverage decisions based on your specific benefits plan. If a claim is denied, we'll send you a letter to let you know. If you don't agree you can file an appeal. To file an appeal, follow the directions in the letter that explains that your claim was denied. Our

appeals decisions will be based on your plan provisions and any state and federal laws or regulations that apply to your plan. You can learn more about the appeal procedures for your plan from your plan documents.

## External Review

Aetna established an external review process to give you the opportunity of requesting an objective and timely independent review of certain coverage denials. Once the applicable appeal process has been exhausted, you may request an external review of the decision if the coverage denial, for which you would be financially responsible, involves more than \$500\* and is based on lack of medical necessity or on the experimental or investigational nature of the proposed service or supply. Standards may vary by state, if a state-mandated external review process exists and applies to your plan.

An Independent Review Organization (IRO) will assign the case to a physician reviewer with appropriate expertise in the area in question. After all necessary information is submitted, an external review generally will be decided within 30 calendar days of the request.

Expedited reviews are available when your physician certifies that a delay in service would jeopardize your health. Once the review is complete, the plan will abide by the decision of the external reviewer. The cost for the review will be borne by Aetna (except where state law requires you to pay a filing fee as part of the state mandated program).

Certain states mandate external review of additional benefit or service issues; some may require a filing fee. In addition, certain states mandate the use of their own external review process for medical necessity and experimental/ investigational coverage decisions. For further details regarding your plan's appeal process and the availability of an external review process, call the Member Services toll-free number on your ID card. You may obtain an external review request form from Member Services. You also may call your state insurance or health department or consult their website for additional information regarding state mandated external review procedures.

## Georgia

Members can call 1-888-772-9682 (toll-free) to confirm that the preferred provider in question is in the network and/or accepting new patients.

Members have direct access to the participating primary Ob/Gyn provider of their choice and do not need a referral from their PCP for a routine well-woman exam, including a Pap smear when appropriate and an unlimited number of visits for gynecologic problems and follow-up care.

Members also have direct access to the participating dermatologist provider of their choice and do not need a referral from their primary care physicians to access dermatologic benefits covered under their health plan.

A summary of any agreement or contract between Aetna and any health care provider will be made available upon request by calling the Member Services telephone number on your ID card. The summary will not include financial agreements as to actual rates, reimbursements, charges, or fees negotiated by Aetna and the provider. The summary will include a category or type of compensation paid by Aetna to each class of health care provider under contract with Aetna.

## Consumer Choice Option

The Consumer Choice Option is available for Georgia residents enrolled in certain Aetna managed care plans. Under this benefit option, with certain restrictions required by law and an additional monthly premium cost, members of certain Aetna managed care plans may nominate an out-of-network provider to provide covered services for themselves and their covered family members. Your benefits and any applicable copayments will be the same as for in-network providers. The out-of-network provider must agree to accept the Aetna compensation, to adhere to the plan's quality assurance requirements, and to meet all other reasonable criteria required by the plan of its in-network participating providers. It is possible the provider you nominate will not agree to participate.

This option is available for an increased premium in addition to the premium you would otherwise pay. Your increased premium responsibility will vary depending on whether you have a single plan or family coverage, and on the type of insurance, riders, and coverage. Exact pricing and any additional information can be obtained by calling 1-888-772-9682. Please have your Aetna member ID card available when you call.

While every provider listed in the provider directory contracts with Aetna to provide primary care services, not every provider listed will be accepting new patients. For the most current information regarding the status of any physician's practice, please contact either the selected physician or call Member Services at the toll-free number on your ID card.
